Resonating Life

AMized® Fusion Technology is Amega's proprietary technology solely developed by the Amega Global R&D Team, comprising a group of scientists, doctors and physicists. It is a resonance technology developed over a period of 15 years of research applying the principles of Quantum Physics and Quantum Mechanics.

As in the Homeostasis condition, our body's Bio-energy field can automatically access the Zero-Point Life Force Energy from the environment and restore the energy deficiency bringing all aspects (mental, emotional, physical and spiritual) into harmony.

Our Body's own natural intelligence can channel the life force energy received to the points where it is needed most and when administered over a period of time, it aids cell rejuvenation and enhances our inner vitality. It aids immunity by cleansing, charging and rejuvenating our body cells, thus it aids age reversal, promotes healthy cells and expels diseases.

AMized® Fusion Technology process includes:

1. Neutralizing negative frequencies and memories from substance
2. Clearing the bio photon field distortions of the substance
3. A 14 – 21 days energization in a Vacuum chamber

AMized® Fusion Technology

With the application of AMized® Fusion Technology normal tap water can be restored to its original structure and to resonate Zero-Point energy, which has a tremendously positive effect on our body.

**Normal Tap Water Before
AMization**

**Same Water After
AMization**

Normal tap water is unstructured and has little or no photon reflection.

Energized water with AFT shows an increased photon reflection and a more complex cluster structure – whereas the fern like fractal branching are an expression of the liveliness of the water. The increased photon reflection also has positive effects on the metabolism of the body.

AMized® Fusion Technology

AMization process on Organic Matter

With the application of AMized® Fusion Technology process any matter be it be organic abstract, power, stones, metals, or any substances can be enhanced to resonate at Zero-Point field.

Picture below shows a drop of Face cream's bio photon field before and after AMized® Fusion Technology.

Bio photon field Before AFT

Bio photon field after AFT

AMized® Resonance on Human Blood cells

Blood Cell before AMized® Process

The clients blood is taken prior to any exposure to AMization. Clumping of the erythrocytes.

Blood Cell after AMized® Process

Taken 2 hours after AMization. Already improved, the erythrocytes are singular and free in the plasma

Blood Cell after 8 Hrs (Not energized with AFT)

The same blood as photo one. The difference here is that eight hours have elapsed and the blood is dead! Only cell fragments are recognizable

Blood Cell after 8 Hrs (Energized with AFT)

The same blood as in photo two. After eight hours you can see the blood is still alive and the cells still have their cellular integrity

Human Bio Energy Field Before and After Use of AMized Fusion Products

Notice the energy gaps in the bio energy field, which cause the imbalance in the body.

Notice the bio energy field completely restored and an increased energy level after use of Amized® Fusion Technology products

Resonating Life

Our human Body is divided into 3 sections, or in fact all living matter, that is

- Energetic System,
- Information System,
- Physical System.

Its is understood under the complementary theory that the Bio- photons field of any living matter is first distorted by the pollution, parasites, radiation, e-smog and free-radical. When the Bio-photon field is distorted, this will bring about disturbance in the information system within which will result in physical deformations.
